## TECHNICAL DATA

### BET 30 PAIR 5 PIN BLOCK

SC-260-QC2-30

#### Description

A true 30 pair BET 5 pin protection block intended for communication equipment and circuits. This product was designed specifically for your protection requirements when installing DS3 MUX equipment which require 28 T-1 pairs. It is no longer necessary to purchase more protection capability than is actually required to do the job.

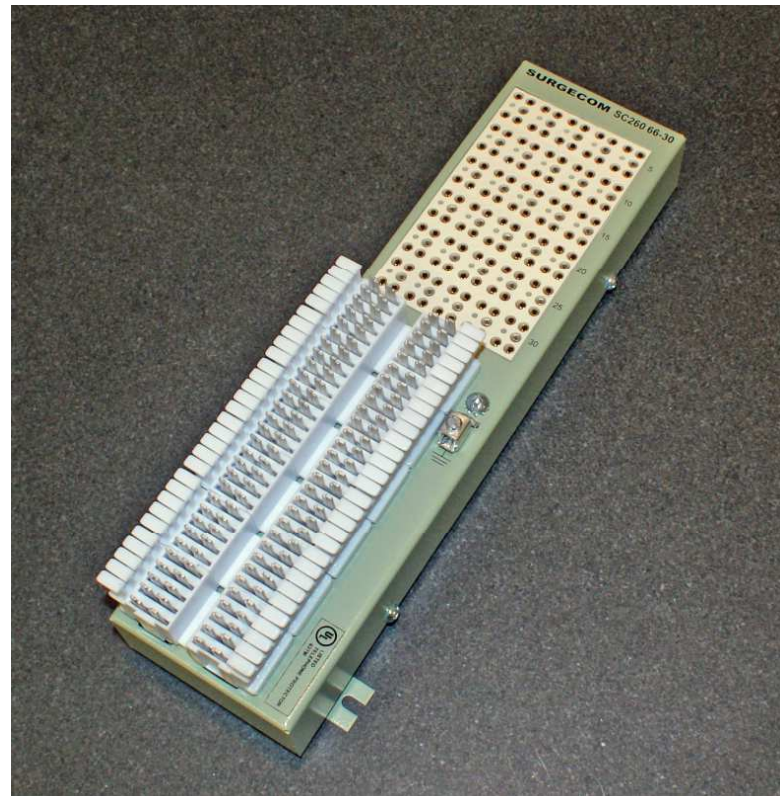

#### Features

- Epoxy powder coated metal housing
- Uses industry standard 5 pin protectors
- Corrosion resistant gold plated sockets
- Convenient single point ground lug
- 66 connector input/output

#### Dimensions

11.75" long x 3.835" wide x 3.05" deep

(depth does not include 5 pin protectors)

SC-260-QC2-30

#### Order

TDI Part Number: **SC-260-QC2-30**
